Chapter 1 About the Smart Measurement® System

The Smart Measurement® System, available through the amlhealthy.com web site, offers an affordable, automated, confidential and secure way to provide health assessments to your member population. These include generic health assessments and surveys that estimate the impact of other diseases and conditions on the member's functional status and well-being.

General Health Assessments

- SF-36v2® Health Survey
- SF-36v2® Health Survey Pain Enhanced
- SF-36v2 Health Survey Medical Expenditure
- SF-12v2® Health Survey
- SF-12v2® Health Survey MH Enhanced
- SF-12v2® Health Survey Pain Enhanced

- SF-12v2 Health Survey Medical Expenditure
- SF-10™ Health Survey for Children
- SF-8™ Health Survey

Condition-Specific Assessments:

- Pain Impact Questionnaire™ (PIQ-6™)
- Headache Impact Test™ (HIT-6™)
- Asthma Control Test™ (ACT™)
- Asthma Impact Survey™ (AIS-6™)

To learn more about our surveys, technology solutions and science support services, please contact us at <https://campaign.optum.com/optum-outcomes/contact-us.html> or complete Optum's Survey Request Form at <https://campaign.optum.com/optum-outcomes/survey-request-form.html>

The Smart Measurement® System enables healthcare and research professionals to obtain health status assessments from members quickly, simply, and confidentially, with results reported in real time. The platform can be used to collect data in a variety of ways:

1. Online administrator entry of a proctored survey administration.
2. Transcription of paper forms into the online system.
3. Direct member login to a separate/simplified member interface for online survey entry.
4. Processing of fax survey forms.

The Smart Measurement® System offers the following features

For the clinician/healthcare professional:

1. Automated data collection service through a secure and confidential web site.
2. Member-specific health data in real time.
3. Clinical monitor for capturing changes in member health status over time.

4. Tabled results - for individuals or groups. Download for further analysis and reporting.
5. Reports available at the Individual (member) level with trending of results over time as well as an aggregated report for monitoring as a group.
6. Enhanced data management capabilities with the new upgraded service allowing export of data to standard formats (HL7, CDISC, CSV, TXT, XLS, and HTML).

For the member:

1. Secure and confidential login and registration process.
2. Immediate feedback of scores and interpretations for member and clinician use.
3. Personal notebook to track changes in personal health over time.
4. Vehicle for improved member-clinician communication regarding the impact of illness and treatment on the member.

Chapter 2 Overview of the Smart Measurement® System

This section of the guide provides a general overview of Smart Measurement® System.

The Smart Measurement® System provides information to help:

1. Understand how members view their own health - how they function in their daily lives and how they feel.
2. Measure the effectiveness of treatment on aspects of health to an individual member or group.
3. Screen members to target those who need care the most.
4. Help the health care team and their members make treatment decisions.

Licensing the Smart Measurement® System

To license the Smart Measurement® System for an upcoming study/program, please contact your QualityMetric account representative.

If you don't have an account representative:

- Refer to QualityMetric's website:
www.qualitymetric.com/contactus
- Or, submit an online license request form:
www.qualitymetric.com/license

Purchasing Surveys and Survey Credits

To purchase additional surveys or survey credits, please contact your QualityMetric account representative (or use the links above).

Getting Started

Upon licensing the Smart Measurement® System for collection of QualityMetric's survey tools, an email will automatically be sent to the primary licensing contact with his or her login and initial password. This user is then responsible for creating other professional user accounts (including users of the same access level), establishing sites, and assigning surveys to sites. Such actions and more are discussed later on in this document.

Implementation

To assist you in implementing your health assessment data collection effort, we offer some practical advice. Make strategic decisions about the population you'd like to monitor. As much as possible, integrate the data collection into your day-to-day office routine. Aim for clinical "ownership" of the measurement process. Make the data meaningful and link the outcomes to the improvement process.

Professional Levels of Access

The Smart Measurement® System includes secure access for all healthcare professionals assigned to the group account. When the initial survey purchase is made, the group account and group administrator level of access is established. Optional data management features are now available to the professional to ensure greater data control and security. Professional accounts with differing levels of access can be established as desired and administered by the group administrator. In addition, multiple sites can be established, with professionals designated as site administrators to manage site level data. Different surveys can be assigned to each site, for greater flexibility in measuring health outcomes for a given population or program. Professionals can perform varied data management functions as established by the level of access assigned to the professional account, within the designated site(s).

Member Registration

We recommend that you establish a member registration process. A staff person in your office can now register members using the professional data management functions accessible through the www.amlhealthy.com **Healthcare Professional and Administrators** section or can direct members to register themselves online through the www.amlhealthy.com **Healthcare Consumers and Members** section. If members complete the registration themselves, each member must enter the designated **Site Name** during member registration in order for the data to be linked appropriately to the site within your established group account.

Completing a Survey Online

After member registration, surveys may be taken online at www.amlhealthy.com. Each registered member has an individualized **Health Notebook** allowing access to the surveys purchased under the group account and assigned to the associated site. Members will have access to their most recent member report and can be encouraged to bring the reports to the office visit to discuss treatment progress.

Reports Available

The Smart Measurement® System provides Member and Clinician Feedback Reports. There is an aggregate report available for use in monitoring a group or site. Tabled data reports allow the professional to download results for further analyses.

Using the Smart Measurement® System

Once you have purchased the Smart Measurement® System, go to www.amlhealthy.com to access the service, establish additional sites, associate professionals and surveys, and manage data. The login name and password established during your purchase will serve as your professional login. This information was sent to you in e-mail after purchasing the Smart Measurement® System.

Chapter 3 Implementation

Your Staff Role You and your staff play an essential role in ensuring that the surveys convey an accurate picture of how a member perceives his or her health. Your beliefs and attitudes about the use of the survey convey important messages to the member that may affect his or her responses.

You or designated staff can access the www.amlhealthy.com Healthcare Professionals and Administrators section and register a member online. If member registration is completed through the Healthcare Professionals and Administrators section, the professional may need to assign the member to the appropriate site within the group if the professional has access to more than one site within the group. (See Chapter 4 for details on professional accounts and establishing professional levels of access.) Completing member registration in this manner may simplify member instructions otherwise needed for registration. You can instruct the member to use the “login name” and “password” determined by you as part of the registration. A unique identifier can also be assigned to each member account for an added level of confidentiality. The unique identifier can be your identifiable link between the member data and the group account, and should not be modified unless correcting an error in recording.

The member may be instructed to complete self-registration online through the www.amlhealthy.com Healthcare Consumers and Members section, if they have access to the Internet. After a member has been registered, the member can login to the Healthcare Consumers and Members section and take the survey online.

Member Recruitment Tips

- When scheduling an appointment, inform members that the survey must be completed as part of the initial assessment.
- Incorporate the use of the survey into the daily routine, clinical encounters and treatment protocols.
- Treat the survey as an integral part of everyday business, not as an extra task.
- Inform members that the survey is more than just a special project or study.
- Ask the member to complete the survey online if possible or send a paper copy to the member for completion in advance of the visit (if a fixed-length questionnaire). Paper surveys may be used to key in the responses to a web form or you may use our fax service to capture and process paper forms.
- A consistent routine within a site will help ensure the success of your program.

Chapter 4 Smart Measurement® System for the Healthcare Professional

The Smart Measurement® System provides secure levels of access for healthcare professionals through established group accounts, associated professional and member membership accounts, and data management capabilities by clinic site or subgroups within the group account. Multiple professional accounts can be established and administered, and surveys can be associated with one or more sites depending on the needs of a given population or program.

Professional Accounts

Professional accounts are created during a registration process, whereby a login name and password are established for the professional. Each professional account has an assigned **Level of Access** that determines which tasks he/she has authorization to perform.

Professional Level of Access Descriptions

Group Administrator

The highest level of access is the Group Administrator. Group Administrators are responsible for managing all Members, Sites, and other Professional users.

Site Administrator

The Site Administrator has a level of access allowing management of sites, Members accounts, professional accounts, and data. The Group Administrator assigns the Site Administrator level of access to a professional account.

Full Access Professional

The Full Access Professional has a level of access allowing management of Member accounts and data. The Full Access Professional also has access to various reports.

Data Entry Professional

The Data Entry Professional has a level of access allowing management Member accounts and data.

Aggregate Report Viewer Professional

The Aggregate Report Viewer Professional has a level of access allowing generation of Aggregate Reports. No member level data is accessible.

Professional Login

The first step in accessing the Smart Measurement® System is logging in.

1. Go to www.amIhealthy.com
2. Under the “Healthcare Professionals and Administrators” section, login using the professional login name and password established during account registration and click on the login button (see **Figure 1**)

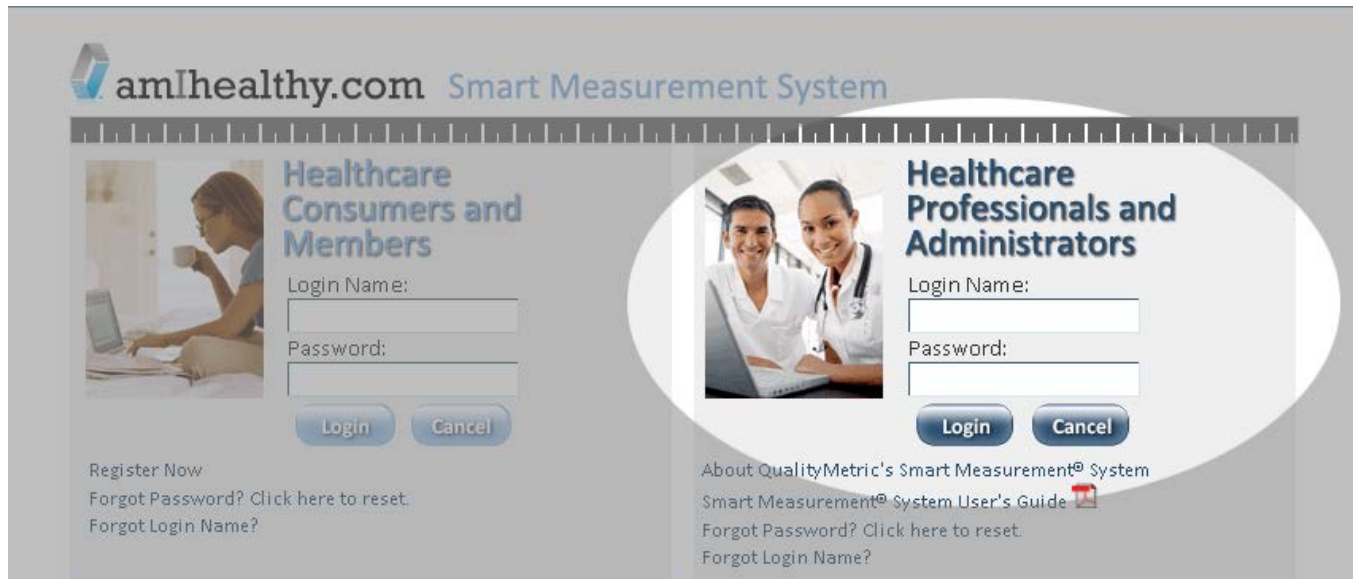

Figure 1: Professional Login

3. The professional notebook page will appear upon successful login

Forgot Password: If you have forgotten your password, click on the “Forgot Password?” link. You will be required to enter your Login Name and Email. If the Email Address provided matches what is stored for your Login Name, you will receive an email message containing a temporary password and instructions to reset your password.

Administering Sites – Update Existing Site

1. From the Professional Notebook, Select Administer Sites
2. Select the Site you wish to administer in the select box, then click on the link for "Edit Site"
3. Modify the information as needed, then Click "Update Registration".

Member Administration

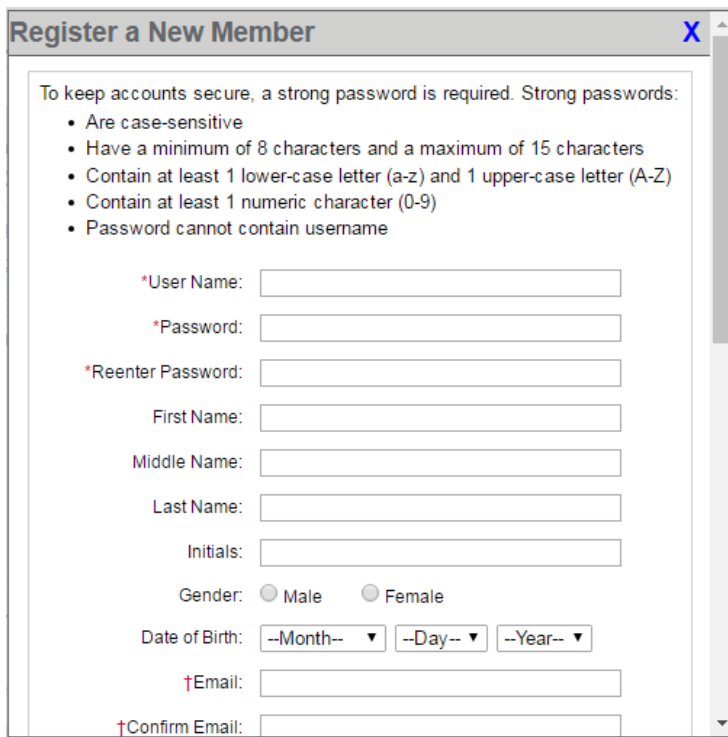

Registering a New Member

1. Click the "Members" tab at the top of the Professional Notebook page.
2. Click on the "Register a New Member" link.

The screenshot shows a web interface titled "Members". At the top, there are two links: "Register a New Member" (circled in red) and "Upload Members". Below these links is a section titled "Member Search Criteria" with several input fields: "User Name", "First Name", "Site" (a dropdown menu currently showing "Asthma (ASTHMA)"), "Initials", "Last Name", and "Auxiliary ID". There are "Search" and "Clear" buttons at the bottom of the search section.

3. Complete the registration form and click Submit.

The screenshot shows a window titled "Register a New Member". It contains a list of password requirements: "To keep accounts secure, a strong password is required. Strong passwords: • Are case-sensitive • Have a minimum of 8 characters and a maximum of 15 characters • Contain at least 1 lower-case letter (a-z) and 1 upper-case letter (A-Z) • Contain at least 1 numeric character (0-9) • Password cannot contain username". Below the requirements are several input fields: "*User Name:", "*Password:", "*Reenter Password:", "First Name:", "Middle Name:", "Last Name:", "Initials:", "Gender:" (with radio buttons for "Male" and "Female"), "Date of Birth:" (with dropdown menus for "--Month--", "--Day--", and "--Year--"), "†Email:", and "†Confirm Email:".

Finding and Administering Members

After you have successfully logged into amlhealthy.com you can access the member information from the Professional notebook page. Click the “Members” tab at the top of the page and designate your search criteria. The help key  can assist in defining your search fields as indicated below.

Member Search Criteria

Use this Search Engine to search for amlhealthy.com members associated with your site(s). Narrow your search criteria by filtering your search results. Optional filters define the following fields:

- **User Name:** the user name entered during member registration
- **Auxiliary ID:** an auxiliary identifier that may be entered during member registration. This is an optional field.
- **Last Name:** the last name entered during member registration
- **First Name:** the first name entered during member registration
- **Site:** a drop-down list of the sites associated with the professional account defining the search criteria

Please note: If you do not specify any search criteria, your search results will return **all** members associated with the selected site(s).

Administering Surveys

Professionals can take surveys by proxy once Members have been established.

To Administer a Survey

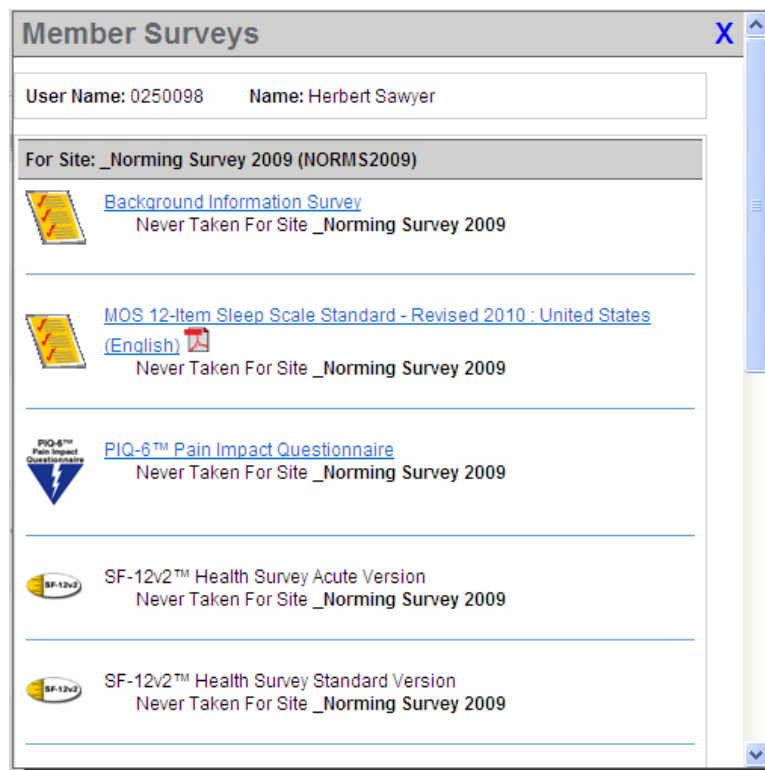

1. From the Member Search Results Pane, click on the "Take a Survey" link.

The screenshot shows a table titled "Member Search Results". At the top, there are navigation links: "First", "Previous", "Next", and "Last". To the right, there is a dropdown menu set to "50 per page" and a text indicator "1 - 50 of 8115". The table has seven columns: "Status", "User Name", "Last Name", "First Name", "Initials", "Auxiliary ID", and "Actions". Two rows are visible. The first row has a status of "N/A", user name "0250098", last name "Sawyer", and first name "Herbert". The "Actions" column for this row contains four links: "Take a Survey" (circled in red), "View Survey History", "Edit Member", and "Delete Member". The second row has a status of "N/A", user name "0250154", last name "Grant", and first name "Lauretta", with the same set of action links.

Status	User Name	Last Name	First Name	Initials	Auxiliary ID	Actions
N/A	0250098	Sawyer	Herbert			Take a Survey View Survey History Edit Member Delete Member
N/A	0250154	Grant	Lauretta			Take a Survey View Survey History Edit Member Delete Member

2. The Member Surveys screen will appear. Locate the survey you wish to administer and click on the Survey Name to start the survey.

The screenshot shows the "Member Surveys" screen. At the top, it displays "User Name: 0250098" and "Name: Herbert Sawyer". Below this, it says "For Site: _Norming Survey 2009 (NORMS2009)". There are five survey options listed, each with a small icon and a "Never Taken For Site _Norming Survey 2009" status:

- [Background Information Survey](#)
- [MOS 12-Item Sleep Scale Standard - Revised 2010 : United States \(English\)](#)
- [PIQ-6™ Pain Impact Questionnaire](#)
- [SF-12v2™ Health Survey Acute Version](#)
- [SF-12v2™ Health Survey Standard Version](#)

View Survey History for a Member

Professionals can review all completed surveys for a member.

1. To access the Survey History, select "View Survey History" from the Member Search Results Pane.

Status	User Name	Last Name	First Name	Initials	Auxiliary ID	Actions
N/A	0250098	Sawyer	Herbert			Take a Survey View Survey History Edit Member Delete Member

Deleting a Survey

Professionals with the pre-requisite level of access will have the option to delete surveys. The survey record will be permanently deleted. Deleting a survey requires a reason and comment to be entered. This information will be saved in the audit trail.

To Delete a Survey

1. Select "Delete Survey" from the Actions Column in the Survey Results.

Survey Results				1 record
Alert	Survey	Survey Date	Timepoint	Actions
	SF-8 Health Survey	06/22/2009	Baseline	View Member Report View Provider Report Edit Survey Delete Survey

2. The Delete Survey screen will appear. When deleting a survey, the professional is required to enter a Reason and Comment as to why the survey is being deleted.

Access Site Level Tabled Reports of Member Scores

To access reports from the Professional Notebook page, click the "Reports" tab. Click the help key to see the following explanation:

Tabled Reports

Use the Tabled Reports feature to generate a report of survey administrations within your site(s). Narrow the search parameters for the report by making changes to the Report Criteria. Choose to have the results returned to you in HL7, CDISC, web-based (.html), Microsoft Excel (.xls), Comma-separated values (.csv), or comma-delineated text file (.txt) formats.

The screenshot shows a web form titled "Tabled Reports". At the top, it says "Enter Criteria & Report Format below:". The form contains several fields:

- Group:** A dropdown menu with the selected option "- All Group Data -".
- Site:** A dropdown menu with the selected option "- All Site Data -".
- Survey:** A dropdown menu with the selected option "Allergic Rhinitis Impact Survey".
- Start Date:** A date input field with the value "01/01/2001" and a calendar icon.
- End Date:** A date input field with the value "08/25/2012" and a calendar icon.
- Members:** A dropdown menu with the selected option "Both Active and Inactive Members".
- *Report Format:** A dropdown menu with the selected option "Web Page (*.htm)".

Below the fields is a "Get Report" button. At the bottom of the form, there is a note: "* We have updated and improved tabled reporting report formats, so please check the options as they have changed. For users of the original report formats, please use the selections labeled 'Original'."

Listed below are the various search criteria and a brief explanation of each.

- **Group:** the Group to be included in the search.
- **Site:** the Site to be included in the search. Only Group Administrators and above have the pre-requisite level of access to alter this field.
- **Survey:** the Survey to be reported on.
- **Start Date:** the Survey Administration starting date to search on.
- **End Date:** the Survey Administration ending date to search on.
- **Members:** the Active State (All, Active, Inactive) for Members to be searched on. Please note: Selecting "- All Member Active States -" will return records for all Members, regardless of their Active State.
- **Report Format:** the output format of the report (HL7 2.1 - 6, CDISC 1.1 - 1.3, HTML, Excel, Plain Text).

Please note: Depending on the number of Survey Administrations your members have taken, the Tabled Reports may take an extended period of time to generate. Please give the reports ample time to generate (up to a full minute) before attempting to run the report again.

The following is an example of a Tabled Report output Format.

Tabled Reporting										
Group.GroupID	Group.GroupLoginName	Site.SiteID	Site.SiteLoginName	Member.MemberID	Member.LoginName	Member.Email	Member.FirstName	Member.LastName	Member.Initials	Member.Gender

Chapter 5 Smart Measurement® System for the Healthcare Consumer

Using the consumer site for the member, members can self-register and/or access an established membership to complete surveys and view results online.

We recommend that the office staff complete registration to ensure appropriate enrollment. However, if members are instructed to complete their own registration, your **Site Name** is a key piece of information needed for this process. See Chapter 4 for information on establishing sites within the group account. If your member does not designate your **Site Name** during member registration, you will not be able to track your member results. After

completing the member registration process, the member can take the survey online from their individualized Health Notebook.

Member Registration Steps

Each group practice should set up procedures for registering new members on the amIhealthy.com™ Web site, whether handled by you or the member.

Member registration can occur:

1. During the scheduling of the intake appointment,
2. After the appointment has been made, as part of the office routine,
3. At a central administrative office,
4. By the member at home, if they have access to the internet

Below are the steps to register on www.amIhealthy.com using the Consumer Site:

1. Go to www.amIhealthy.com
2. Beneath “Healthcare Consumers and Members”, click on the “Register Now” link to register

Please enter the Site Name provided to you by your clinic or health care provider:

*Site Name:

If your clinic or Health Care Provider provided you with a unique identifier, please enter that information below.

Auxiliary ID:

The Notebook will then open to display the surveys available to be taken by the member.

The screenshot displays the 'amIhealthy.com Smart Measurement System' interface. At the top, there are tabs for 'Notebook' and 'My Account'. Below this, the 'Health Surveys' section is visible, with a sub-header 'Site: TESTSITE (TESTSITE)'. A list of surveys follows, each with an icon, a title, and a status. All surveys are marked as 'Never Taken For Site TESTSITE'.

Survey Icon	Survey Title	Status
	HYPOPHOSPHATASIA PATIENT QUESTIONNAIRE (SF-10)	Never Taken For Site TESTSITE
	SF-10™ Health Survey for Children	Never Taken For Site TESTSITE
	SF-10™ para niños/as	Never Taken For Site TESTSITE
	SF-12v2™ Health Survey (Spanish)	Never Taken For Site TESTSITE
	SF-12v2™ Health Survey Standard Version	Never Taken For Site TESTSITE
	SF-12v2® Health Survey (Advanced Reporting)	Never Taken For Site TESTSITE
	SF-12v2® Health Survey MH Enhanced (English)	Never Taken For Site TESTSITE
	SF-12v2® Health Survey MH Enhanced (Spanish)	Never Taken For Site TESTSITE
	SF-12v2® Health Survey: Mexico (Spanish)	Never Taken For Site TESTSITE
	SF-12v2® Health Survey: United Kingdom (English)	Never Taken For Site TESTSITE
	SF-12v2® Health Survey: United States (English)	Never Taken For Site TESTSITE

Once a member has registered, the surveys can be accessed and completed online from the member Health Notebook page on www.amIhealthy.com for the consumer or by proxy from the professional Health Notebook page. See Chapter 4 for proxy instructions.

Instruct the member on how and when to complete the survey online at www.amIhealthy.com™ based on your defined protocol.

Member Login Steps

Below are the steps for taking a survey on www.amIhealthy.com:

1. Go to www.amIhealthy.com
2. Under the “Healthcare Consumers and Members” section, log in using the *Login Name* and *Password* entered during member registration and click on the “Login” button.

The screenshot shows the login interface for the amIhealthy.com Smart Measurement System. It features two distinct login paths: one for 'Healthcare Consumers and Members' and another for 'Healthcare Professionals and Administrators'. Each path includes a visual header with a representative image, a text-based login form with fields for 'Login Name' and 'Password', and 'Login' and 'Cancel' buttons. Below the forms, there are links for registration and password recovery. The professional section also provides links to system information and user guides.

Forgot Password: If you have forgotten your password, click on the “Forgot Password?” link. You will be required to enter your Login Name and Email. If the Email Address provided matches what is stored for your Login Name, you will receive an email message containing a temporary password and instructions to reset your password.

Forgot Login Name: If you have forgotten your Login Name, click on the “Forgot Login Name?” link. You will be required to enter your Email. If the Email Address provided matches what we have stored for your Login Name, you will receive an email message containing your Login Name

Completing a Survey Online

After logging in, the member Health Notebook page will display on the screen. You or the member will then click on the Survey Name (e.g.; Headache Impact Test™, SF-36v2® Health Survey, etc.) to be administered. The Health Notebook page will only display the surveys associated with the member's site account.

Reports Available

After completing a survey online, the member will have access to a member report.

Member Reports

Member reports are presented to the user upon completion of most surveys. Member reports for most surveys (including the SF Health Surveys) include the following sections:

- **Your Scores:** Provides the score(s) for the newly completed survey.
- **What Your Scores Mean:** Provides an interpretation of the score(s), usually relative to the general member population. The application can be configured to include additional benchmarks for comparison such as condition specific and regional insurance status.
- **Your History:** Provides the score and interpretation for the last six surveys to visually represent the member's progress over time.
- **Your Progress:** Provides a comparison for current vs previous and /or current vs baseline scores with a progress interpretation.

Other report formats are utilized for some surveys. An example of a Member Report is shown on the following pages.

Member Report

Member: abiron_57
 Age: 57
 Gender: Female

Survey: SF-12v2® Health Survey MH and SET Enhanced (English)
 Date Taken: Sep 13, 2016

Physical Health Summary

Your Score **30**

Your current score indicates that you are **well below** the general population of similar age and gender.

You have indicated significant difficulties with:

- Physical activities
- Impact on activities due to bodily pain
- General health

Your history compared to the population

Mental Health Summary

Your Score **49**

Your current score indicates that you are **same or better** than the general population of similar age and gender.

You have indicated significant difficulties with:

- Limitations at work, home, or school due to emotional problems

Your history compared to the population

Provider Reports

Provider reports are similar to Member reports in that they display the scores for the current survey administration and score trending over time. Provider reports also include the member survey responses with a red flag to indicate if a response requires action. In addition, Provider reports may also be configured to include more advanced member predicted medical expenditure calculations that are based upon a member/disease population.

Provider Reports are available for Professional Accounts only.

Chapter 6 Frequently Asked Questions

What If The Members Call In With Questions?

Some members may call in to ask what a specific question means. In this instance, a staff member can assist them by reading the question to him or her verbatim.

Don't try to explain what the question means, but tactfully suggest that the participant use his or her own interpretation of the question.

All members should answer all of the questions based on what they think the questions mean.

Some participants may be confused by the response choices and may want to respond with "I don't know" or some other response that is not on the survey. If that happens, ask the participant to choose the answer that comes closest to how he or she is feeling.

How Do I View Tabled Data?

To view member listings and tabled level data, or to check on your account status, go to www.amlhealthy.com, login using the login name and password established when purchasing the Smart Measurement® System. Select Reports tab and Table Reports link then define your search parameters.

Who Can Participate in the Service?

Members must meet the following criteria to be eligible for the service:

1. Adult Members, age 17 or older

When a new member calls to schedule an appointment (any type of office visit is okay), a staff member should determine whether the member meets your eligibility criteria for the project.

A member can participate if he or she has other conditions in addition to the illness of concern or if he or she is participating in another study or trial.

The project does not require any changes to the member's treatment plan.

The project only involves the use of surveys in asking about a member's health.

When Should I Recruit Members?

Members can be recruited for the service anytime they call to make an appointment or come into your office for a visit of any kind such as regular, follow-up visit, etc.

You can ask members to participate in the service while they're in the waiting room, before they visit with the clinical staff, or you can ask them at any other convenient time during their visit.

How Do I Ask A Member to Participate in the Project?

Here are some samples to help you introduce the service. Of course, staff members can rephrase these to fit their natural style of speech and the clinical setting.

For members: *"Dr. _____ is using a health survey that will help us understand how you and other members feel, how well you are able to do your usual activities and how you rate your health. We would like for you to complete this survey as part of your treatment plan. It is called the (insert name of surveys)."*

"Do you have access to e-mail or the Internet at home, work, or school?"

If the member says no, probe a little further to see if there is any other way that they might be able to access the Internet/Web.

"Do you have any friends or family who has access who might be willing to let you use their computer?"

Ask the member to complete the survey online if possible or send a paper copy to be completed in advance of the visit (if fixed-length questionnaire), or complete using the member interviewer style.

What Happens During the Member Follow-up Period?

During the follow-up phase of data collection, members should complete the survey as often as instructed by you.

A Member who has been using paper and pencil surveys has called saying that they now have Internet access and want to do the surveys online using amlhealthy.com. What do you do?

Give the member the login name and password for amlhealthy.com and the member can proceed with survey completion online.

My Member has registered but the survey doesn't appear on the Health Notebook page?

The registration wasn't complete. The member needs to add the Site Name field as instructed on the registration page. Ask the member to click on "Add/Remove Site" and add the Site Name for your site, and then click the "Submit" button to complete the action.

Who do I Contact with Questions?

Please e-mail webmaster@amihealthy.com for assistance with questions you are having difficulty in answering. For technical assistance with the site please call QualityMetric at 1-800-572-9394.

How do I purchase more Survey Credits?

If you would like to purchase more survey credits, please contact your QualityMetric Account Executive. Otherwise, you may submit an online request at the following web address:

<http://www.qualitymetric.com/contactus>

How do I download the User's Guide?

You may download the Smart Measurement® System User's Guide, by clicking on the link from the Professional Notebook page. The User's Guide will assist you with implementation, registering members and using the Smart Measurement® System. If you have questions that cannot be found in Frequently Asked Questions (FAQ) section of this User's Guide (Chapter 6) or in the Help files in the Professional Notebook, please email webmaster@amihealthy.com.
